4.1 The City agrees to deduct, once each pay period, dues, assessments, and contributions to the Firefighters benefit fund in an amount certified to be current by the Treasurer of the Local Union from the pay of those employees who individually submit a request form to the Payroll Division.

The total amount of deductions shall be remitted by the City to the Treasurer of the Union. This authorization shall remain in full force and effect during the term of this Agreement. The contributions to the Firefighters benefit fund will be collected from the same payroll deduction slot presently used for dues deduction. The parties agree that when the City implements its new payroll/personnel system, and an additional slot becomes available, the Union may request to use an additional slot provided it pays any associated costs which may be required for its use.

The City's remittance will be deemed correct if the Union does not give written notice to the City within 30 calendar days after a remittance is received. If the Union feels that the remittance is incorrect, the reason(s) for that belief shall be so stated in the written notice.

4.2 The Union will indemnify, defend, and hold the City harmless against any claim made and against any suit instituted against the City on account of any action taken by the City, or any of its agents, in good faith reliance upon forms or documents provided by the Union to the City, regarding payroll deductions.

This time pool will be established by mandatory employee contributions as well as voluntary contributions of accrued vacation leave by the employees and will be administered in the same manner as comp time. Mandatory contributions shall be conducted in a semi-annual cycle with one half (1/2) of an employees single pay period vacation accrual contribution into the Union Time Pool. Filling of all vacancies shall be in accordance with established procedures as amended by this contract.

27.2 The following procedure will be used to create a fair and comprehensive promotional list for the positions of Driver/Engineer, Lieutenant, and Captain.

The candidates will be administered written and practical tests.

The candidates will be ranked in numerical order based on points from;

- Written test score
- Practical test scores
- Education
- Seniority
- Acting points
- Oral interview (Conducted after ranking of top 5 or 3 candidates from above)

Promotional oral interviews that include any member covered by the collective bargaining agreement shall include the presence of at least one member from the Human Resources department as an observer during the panel interviews and scoring process.

When the fifth candidate's score results in a tie, those candidates will be interviewed. The oral interview will be numerically valued with a comprehensive score between 1 through 8 and based on the following elements:

1. Questions related to the mission of the Department and what the candidate would bring to the promoted position in helping the Department meet its mission
2. A review of the candidate's employment history

After the conclusion of the oral interview, the candidate's overall points will be totaled and the promotional candidate ranking will be established by the interview panel.

Upon completion of the interviews, the promotional board will forward the candidates' final rankings to the Fire Chief. It is understood the Fire Chief ultimately makes the final decision regarding the ranking of the employees on the promotional list and will promote the top three (3) candidates in order of ranking. Once the top three (3) candidates are promoted from the list, a new promotional list will be established as outlined in 27.2. This process shall continue until the next annual promotional testing cycle is completed as outlined in policy 1120. In the event the list of candidates falls below three (3), a new promotional testing cycle may begin for that affected rank.

Written, Practical, and interview scores shall be published after completion of the interview process for candidates to review in accordance with SOG 1120. All scoring sheets shall be made available for review upon request.

Disciplinary issues may make an employee ineligible for promotion, as determined by the Fire Chief, resulting in the employee being removed from acting status. If disciplinary action affects one of the top three candidates, the remaining candidates "top 5 to include ties" will move up in order of ranking to replace the ineligible employee.

The following guidelines will be incorporated in all changes which affect the promotional process:

- 1) An advanced four (4) month notice will be issued with any procedural changes.
- 2) The union will be involved with procedural changes in the testing process.

- 3) Labor and Management will meet in the month of May annually to discuss any opportunities for improvement or changes required for future testing.

27.3 All employees who are promoted to a higher rank will receive a salary increase to the minimum for that rank. If the minimum pay step in the new rank results in less than a two-step pay increase for the employee in their current salary, the employee shall be placed in a step which equals a minimum five percent (5%) increase. Employees promoted to a day position will receive a two-step differential which is forfeited if an employee returns to a 24-hour shift schedule. For employees who meet education criteria under 39.3, upon promotion, all education steps shall be backed out, the employee placed in the appropriate pay step, all education steps shall then be added and the employee will be placed in the proper step of their new rank.

27.4 All testing and interviews may be attended by the Union President or designee and must use the Union time pool if on duty or agree to accept compensatory time if off duty. Overtime will only be paid at the Fire Chief's discretion. All scheduled testing and interviews will take place in the event a union representative is not present.

The City, for good reason, may extend the probationary period for a unit member for a period not to exceed a total probationary period of eighteen months. Notice of such extension shall be furnished in writing to the unit members prior to the completion of the probationary period. Any approved leave of absence in excess of ten (10) days shall cause the unit member's probationary period to be extended by the amount equal to the leave taken. In the event a unit member returns to light duty, the probationary period will be extended until the unit member returns to full duty. Upon the unit member's return, the probationary period will resume and continue until fully completed.

ARTICLE 28 - PERSONNEL REDUCTION

28.1 Reduction in force by lay-off shall be in order of Department seniority number with the least seniority being laid off first. Lay-off shall include the right of senior members of the bargaining unit in highest ranked positions to "bump," or roll back members of the bargaining unit in lower classifications who possess less seniority. Recall shall be in reverse order of lay-off and no new employees shall be hired until all members of the bargaining unit on lay-off have been returned or given the opportunity to return to work.

28.2 Notice of recall shall be sent by certified mail or other appropriate manner, to the laid off member, with a copy to the Union, at his last known address. If the member fails to respond within five (5) working days from the date of receiving the notice of recall, signifying his intent to return to work within another five (5) days, he shall be considered to have quit.

Any suspension of Solo status shall be accompanied by a plan set forth by the Medical Director for the employee to regain their Solo status.

If by majority vote the panel decides the Medical Director's decision is not warranted, the Division Chief of EMS shall work with the Medical Director to work towards an acceptable solution to address the issue(s) in concern.

In the event a Solo Paramedic is not at work for a period that extends beyond one month (excluding workers compensation approved injuries and approved vacation or compensatory leave), or is working in a light duty status and not performing the Solo Paramedic duties, the Solo Paramedic incentive shall be suspended until the employee returns to regular duty status.

The City agrees to continue encouraging its existing Firefighters to attain Paramedic training, and will continue the practice of paying tuition, books, and approved costs only for the Paramedic program up front as well as recruiting paramedics. The City will allow Firefighters time off from work, without loss of pay and/or benefits, to attend class and labs for Paramedic training for a maximum of 60 hours. Employees shall be required to maintain their Solo Paramedic status for a period of four (4) years to fulfill their obligation in relation to any pre-employment stipulation or agreement to obtain their Paramedic certification and Solo status.

39.6 In the event an employee is no longer providing Paramedic or Solo Paramedic service the employee's salary/incentive shall be adjusted accordingly.
